

TINE Release 4.x.x News

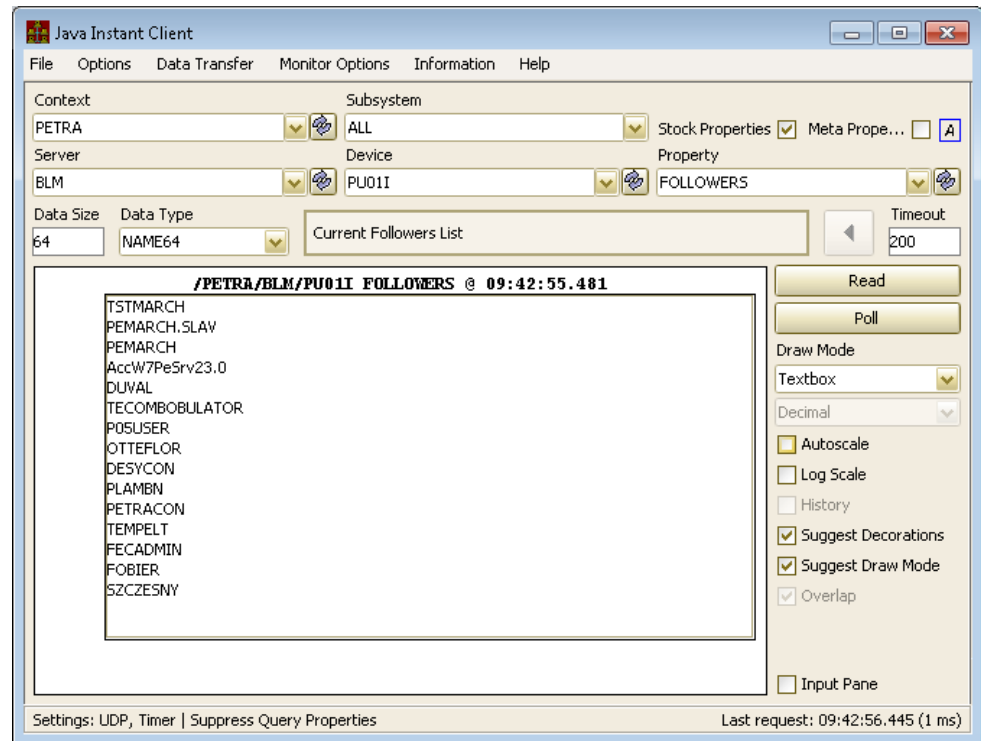

(Feb. 8, 2017: That was the month that was !)

“What a long, strange trip it’s been”

Release 4.6.1

Followers

- Stock property :
- Readable / editable list
- Get contact list from 'Followers'
- Notify on relevant server changes (e.g. new BPM)

[Release 4.6.1]

- CA_NOCALLBACKS

- Applied to synchronous calls.

- Supersedes (sort of) globally 'suppressing callbacks'

- Reference counting was not included in the global mechanism !

- Now it is!

[Release 4.6.0]

- Python news:
 - Servers: can now supply property and device lists to :
 - `pytine_register_device()`
 - `pytine_register_property()`

[Release 4.6.0]

- Acop.NET status
 - Lots of new Acop.NET controls ...
